Koolbreeze Kompact 18
18000btu
Portable Air Conditioner

Multi-season air conditioner and heater in one super compact unit

18000btu of power in a tiny case

Cool or **heat** with the **Koolbreeze Kompact18** Portable Air Conditioner with Heat Pump Heating Technology. This model is an air conditioner, heater, dehumidifier and fan. This energy efficient multi-season unit utilizes heat pump technology to harvest heat from the air while producing more heat and consuming less energy than other portable heaters.

Our evaporative technology uses any collected moisture to cool the unit before it is eliminated through the exhaust ducts. Along with **a powerful 18000btu (5.2Kw) cooling and heating power**, this unit features **a 40 litre/day evaporative dehumidifier** eliminating the need to empty a water bucket. Even on the most humid of days, excess water can be continuously drained from the machine using its powerful internal pump.

The fully **adjustable thermostat** and **programmable timer** automatically power the unit on and off according to user settings. **Built-in memory** and **loss of power protection** allows the user settings to be saved once the unit is programmed. All controls and settings are on a brilliant, easy-to-read multi-color display. Single hose ventilation kit and window guard is included.

SPECIFICATION

- 18000 BTU (5.2 Kw) Heating & Cooling
- 24-hour programmable on and off timer that remembers the user settings -- only need to program once
- 40 Litre per day evaporative dehumidifier
- Adjustable thermostat
- Loss of power protection and on-board memory
- 3 speed fan with oscillating louvers
- Easy rolling casters for portability
- Cooling input 1.8Kw 8.2Amp
- Heating input 1.45Kw 6.6Amp
- Air Circulation 700 Cu/m Hr
- Noise ; Less than 55 db(A) sound pressure
- Size 616x370x780mm
- Weight 43Kg net/ 50Kg gross
- Hose 1.6M x 150mm
- For use between 7C and 35C
- **Energy Efficiency Rating A**

Remote Control
&
Window Kit
Included

Unit must be vented outside when in AC and heater modes. For the purposes of EU regulation EN12102 this is a “local air conditioner” and produces less than 65Dbl sound energy.
